If you park in the shade and want to use the fan, there's a plug-in adapter for the car. One retail Website says the fan can reduce your parked car's interior temperature by 25 degrees, though that's not much solace considering another Website cited 160 to 180 degree temps inside a parked car on a hot day. If you want to try to make your car cooler, you can buy this solar gadget online for around \$10.
